

Joshua Arnold

Software developer | www.dimndev.com

OBJECTIVE

Build helpful software.

Learn new technologies.

Grow through experience.

SKILLS

- Problem Solving
- HTML
- CSS
- JavaScript
- Node.js
- React
- Next.js
- Tailwind CSS
- Python

EXPERIENCE

SUBSTITUTE INSTRUCTOR • TOOEE TECH • DEC 2023 – PRESENT

As a substitute instructor I have the pleasure of assisting others on their journey of becoming knowledgeable software engineers by answering questions, explaining concepts, and pointing others in the direction of information to solve their problems.

FREIGHT HANDLER • WALMART LOGISTICS • AUG 2017 – MAR 2023

I processed freight on the receiving dock. I learned about the logistics of the facility through observation and practice. I unloaded trailers with a forklift and spent time as a yard driver moving trailers.

MANAGER • KRAVERS • AUG 2009 – JULY 2017

At Kravers I was a cashier that handled transactions with a smile, I learned the product through memorization. I became a fry cook, then a line cook, and became a manager allowing the owner days off. I would communicate with employees on operations, vendors on orders and handle customer concerns.

EDUCATION

CERTIFICATE • APRIL 2023-CURRENT • TOOEE TECHNICAL COLLEGE

Software Development

- 2024 Student of the year
- Certificate of Excellence
- President's List Award

HIGH SCHOOL DIPLOMA • MAY 2011 • STANSBURY HIGH SCHOOL

In high school my studies were focused on business and information technology. I also focused my studies toward higher level education such as honors classes and concurrent enrollment through Utah State University. I graduated high school with a 3.7 GPA and a pathway in business and information technology.
